FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Ms. Searcy:

Yesterday, AT&T and the Common Carrier Bureau met to discuss the issues in the above-cited proceeding. The Bureau was represented by Cheryl Tritt, Tom Beers, Greg Vogt and Barbara Esbin; AT&T by Tom Norris, Mark Rosenblum, and me. AT&T reviewed the information recently filed by AT&T with regard to its percentage of the total industry's calling card minutes of use (see Ex Parte letter dated 9/24/92 from R. H. Castellano to Ms. Donna Searcy, Docket 92-77). Specifically, AT&T explained that further examination of the data has shown that AT&T's percentage of minutes in the fourth quarter of 1991 and the second quarter of 1992 was 64%, the same as the number for first quarter 1992; i.e., the percentage has been flat for the past three quarters. A revised table showing this information is attached.

If you have further questions on this information, please contact me. Due to the lateness of yesterday's meeting, two copies of this Notice are being submitted to the Secretary of the FCC on the day after the meeting in accordance with Section 1.1206(a) (1) of the Commission's Rules.

Sincerely,

Copies to: C. Tritt
T. Beers

B. Esbin
G. Vogt
